| | |
|---|------------------------------|
| MASSEY UNIVERSITY | JANUARY 2013 - DECEMBER 2016 |
| Auckland | |
| Bachelor of Information Sciences (BInfSc), Software Engineering | |

| | |
|---|------------------------------|
| NORTHCOTE COLLEGE | JANUARY 2008 - DECEMBER 2012 |
| Auckland. | |
| National Certificate of Education (NCEA), Level 3 | |

EXPERIENCES

SOFTWARE DEVELOPER MARCH 2016 - MARCH 2017

Electrix Ltd.

Worked with a team on a software project called LoneSafe for Electrix Ltd. LoneSafe is a platform on the cloud that tracks lone workers through their android smart phone. LoneSafe allows Electrix to remotely monitor their workers, ensuring their safety. This project was initially supervised by Massey University as part of the final year software engineering project, after which I was employed as a part-time developer to continue work on the platform.

My role in this project consisted of:

Android application development

Database design and development using MySQL , Php, and PhpMyAdmin

INTERN SOFTWARE DEVELOPER AUGUST 2016 - MARCH 2017

Massey University,

Software developer working with a team of other developers and Massey University researchers to design, develop and document a web-based virtual research environment for the Massey Geoinformatics Collaboratory.
